

Keystone 2050

The Keystone Model 2050 offers an unbelievable array of features. It has an easy to read display, built-in NICAD batteries, an AC/DC Adapter/Charger, and performs the four basic math functions. However, from that point, it is one of the rare portable calculators to offer a full array of scientific features. It gives sine, cosine, tangent, inverse trig functions, common logs, natural logs, Pi, squares, powers, full memory, reciprocals, Square root, sign change, memory exchange. Case is made of high impact "cyclocac" plastic.
