The 50 Series speaker systems from RP Acoustics incorporate many of the latest advancements in loudspeaker design, all models are finished in matching black ash woodgrain with new high quality black acoustic grille material..
• High power Bass drivers feature lightweight but strong and rigid woven glass cones with rubber roll suspension capable of producing exciting, deep and punchy Bass.

- Midrange drivers also employ woven glass cones to ensure the transition from Bass to Midrange is seamless and smooth ensuring the overall sound quality is maintained.
- Soft textile dome Tweeters are used for clear life-like treble reproduction with high sound dispersion, so a very wide sound field is created ideal in Home Theatre applications.

RP Acoustic Loud Speakers

All the speakers in the 50 Series are built to handle the dynamic power of today's Digital Home Theatre amplifiers, they all feature matching drivers, to ensure the tonal quality is seamless and consistent across the entire sound stage.. most important in Home Theatre.

M50 3 WAY SPEAKER SYSTEM

The M50s represent excellent value in a 3 way floor standing system, ideal for home theatre.

- Heavy duty Gold Plated Terminals
- Brass removable speaker spikes
- Woven glass Coned Bass & Midrange Drivers with rubber roll surrounds..
- Twin 165mm Bass Drivers
- 125mm Sealed Midrange
- 25mm fabric Dome Tweeter
- Power: 25W to 150W
- Sensitivity: 89dB SPL@1Mtr.
- Frequency Range: 40 ~ 20000Hz
- Impedance: 8 Ohms
- Black Ash finish & black Grille
- Weight per Enclosure: 11kg
- Size: (HWD) 220 x 960 x 300mm..

B50 2 WAY BOOKSHELF SYSTEM

Solidly built 2 way bass reflex system ideal for HiFi and Home Theatre systems, with a high quality black ash grained finish and black grille..

- Heavy Duty Gold plated Terminals
- 25mm fabric Dome Tweeter
- 165mm Woven Glass Bass/Midrange
- Power Handling: 15W to 80W
- Sensitivity: 87dB SPL @ 1 Mtr
- Frequency Range: 50 ~ 20000Hz
- Impedance: 8Ω • Weight: 5kg each
- Black Ash finish & black Grille
- Size: 180 x 310 x 250mm (WHD)

S50 SURROUND SYSTEM

The S50s represent excellent value in a 2 way Surround or Bookshelf bass reflex system, ideal for small Hi-Fi systems or rear effect speakers in a Home Theatre system.

- Heavy Duty Gold Plated Terminals
- Rear facing port • Keyhole wall bracket
- 125mm woven glass Bass/Midrange.
- 25mm Dome Tweeter
- Sensitivity: 89dB SPL @ 1Mtr
- Power Handling: 10W to 50W
- Frequency Range: 90 ~ 20000Hz
- Impedance: 8Ω • Weight: 3kg each
- Black Ash finish & black Grille
- Size: 190 x 320 x 200mm (WHD)

XS50 SURROUND SPEAKERS

Bi-directional Bass reflex effect speakers for a extra wide sound field in a Home Theatre system.

- Heavy Duty Gold Plated Terminals
- Rear facing port • Keyhole wall bracket
- 2 x 125mm woven glass Bass/Midrange drivers
- 20mm Mylar Dome Tweeter
- Power: 10W-50W • Sensitivity: 89dB
- Freq. Range: 90 ~ 20000Hz
- Impedance: 8Ω • Weight: 3kg each
- Black Ash finish & black Grille
- Size: 300 x 280 x 200mm (WHD)

RP ACOUSTIC CENTRE SPEAKERS

The C50 & XC50 centre speakers are voice matched to the other speakers in the 50 Series range, matching the drivers in this way produces a dynamic and more realistic sound field in Home Theatre systems. Bass reflex designs with rear port for dynamic bass response.

- Non parallel sides reduces standing waves and cabinet resonances.
- Heavy duty Gold plated Terminals are employed.

- Both models have magnetically shielded drivers, allowing you to locate them near a TV or monitor without interference to the picture.

C50

The C50 model has rounded corners and non parallel cabinet sides to reduce internal standing waves and cabinet resonances..

- 25mm fabric Dome Tweeter
- Dual 125mm woven glass Bass/Mid
- Power: 10W-60W • Sensitivity: 89dB
- Frequency Range: 90 ~ 17000Hz
- Impedance: 8Ω • Weight: 5kg
- Black Ash finish & black Grille
- Size: 480 x 185 x 190mm (WHD)

XC50

The XC model has cut away corners, non parallel sides and solid cabinet construction this design helps reduce internal cabinet resonances..

- 25mm fabric Dome Tweeter
- Dual 125mm woven glass Bass/Mid
- Power: 10W-60W • Sensitivity: 89dB
- Frequency Range: 80 ~ 18000Hz
- Impedance: 8Ω • Weight: 6kg
- Black Ash finish & black Grille
- Size: 480 x 185 x 200mm (WHD)

SW120 RP ACOUSTIC POWERED SUBWOOFER

A subwoofer is an essential component in any serious Home Theatre system, the SW120 produces powerful deep Bass with plenty of punch, because deep Bass is non directional the SW120 can be located anywhere in the room, but near a corner will produce to most dynamic effect.

- Heavy gauge metal back plate with controls for: Volume, Low Pass 35~150Hz, & Phasing, plus RCA Sockets for Sub In, Line In-Left & Line In-Right ,
- 4mm colour coded terminals for speakers Left & Right..
- 255mm (10") Coated cone driver
- Inbuilt 120W Amplifier
- Sensitivity: 200mV
- Frequency Range: 35 ~ 150Hz
- Impedance: 8Ω • Weight: 18.8kg.
- Black Ash finish & black Grille
- Size: 330 x 380 x 400mm (WHD)
